At the time of drafting the letter and right now, we cannot share the data

Best wishes,
Heather

Sorry if I responded to this already.

The second and third paras make it sound like we aren't sharing the addresses with anyone. But, after today's 1:00 call, I thought that we were going to get the data sharing agreement in place with the County, and that, under that agreement, we would share the addresses. Maybe I missed something – I had a bad connection on the phone. Is all of this internally consistent?
